LMS Environment										
QA Test Sprint										
UAT Release Sprint										
Submit Feedback Email	UAT@latitudecg.com									
Initials of Reviewers	Sarah Robinson (SR), Brooke Oprsal (BO), Caroline Lorenz (CL), Jill Schultz (JS)									
Test Case	**Expected Results**	**Setup Conditions**	**Steps to Reproduce**	**Actual Results**	**Pass/Fail**	**Test Date - Initials**	**BUG Ticket ID**	**Priority (1 = ShowStopper, 2=FixforLaunch, 3=Warranty)**	**Actual Fix/Working as Designed/Out of Scope**	**Telerik Test**
LMS Regression Test	TelerikNEWLMS portal is built with baseline data.	Testing environment is "frozen" with complete code package.	Run LMS Regression Test.							
LMS Unit Tests	All Unit Tests pass green.	Testing environment is "frozen" with complete code package.	Run complete LMS build.							
Browser Compatibility	Chrome									
	FireFox									
	Internet Explorer 11									
	MS Edge									
	Safari									
Mobile Compatibilty	Android									
	iOS									
English User	Site Text in English and Dates formated (MM/DD/YYYY)									
English – UK User	Site Text in English and Dates formated (DD/MM/YYYY)									
English – Australia User	Site Text in English and Dates formated (DD/MM/YYYY)									
Chinese - China User	Site Text in Chinese and Dates formated (年/月/日)									
Français – Canada User	Site Text in French and Dates formated (AAAA-MM-JJ)									
Germany – Germany	Site Text in German and Dates formated (dd.mm.yyyy)									
Italian – Italy User	Site Text in Italian and Dates formated (GG/MM/AAAA)									
Portuguese – Brazil User	Site Text in Portuguese and Dates formated (DD/MM/AAAA)									
Español – Mexico User	Site Text in Spanish and Dates formated (MM / DD / AAAA)									
Ensure **multi-lingual content support**	Translated records display in user's Preferred Language									
LMS Header elements work from new page.	Icons and My Information menu.									
Ensure pages support User **Impersonation** functionality	When an administrator Impersonates user, all new pages should display end user content.									
Ensure pages support **Switch Profile** functionality	Content and branding is updated to user's active organization on Activate Profile and Return to Default actions.									
Ensure new **CSS standard** styles apply to all pages	All pages use the new standard user interface page template with the common header.									
Ensure **LMS Branding** settings apply portal wide.	Company level branding overrides global default. Global default no longer displays in portal.	LMS Information page > LMS Branding section displays default content/style files	Change What's New file to custom > Submit. Log in as multiple users to verify.							
Ensure **Organization Branding** overrides cascade from Business Unit level	Users under Business Unit "BUA" see different Logo than users outside "BUA" hierarchy.									
Ensure **Position Group Branding** overrides Organization and LMS Branding	Users at Location "BRANDLOC" see different What's New content than users at any other Location.									
LMS Information - All portal configuration settings continue to work with new pages.	Login Landing Page, Home Page	Make one or both point to new Featured Courses page								
Page Layout	Header Icon: Flag									
	Header Text: Featured Courses									
	Online Help points to new DNN page	https://www.latitudelearning.com/lms-help/featured-courses								
	Display record count in upper left corner.									
	If course list is more than 25 records, display standard pagination and items per page components.									
Course Cards	Course card design reflects industry standard with course image, title, user enrollment status, and action options.									
1. Course Image	Course Image file will be proportionally constrained 2.2:1 ratio, centered	Load custom image to course	View Course Details page, ensure image displays same in course card.							
2. Course Name	Links to Course Details page.									

3. User Enrollment Status	Use logic and text from Courses to Complete (CTC) page > Required									
	If user has an enrollment with "Due Date", display on card.									
	If due date is past, add red text flag "Past Due".									
	If user is enrolled in a Classroom or Virtual Classroom course offering, display "Next Meeting" date and red Google Maps marker for Facility address.									
	Add status label "Completed", which displays when user's most recent transcript in course is has either status: Attend (Pass), Attend No Bill (Pass)									
4. Action	Course Image click opens Course Detail Expando									
	Course Name click opens legacy Course Details page in modal									
	Ensure same action buttons from CTC > Required tab display on course cards, according to Course Type and User Enrollment Status	Type: Assessment	View CTC page > Required tab. Ensure same action buttons appear on user's new Featured Course card.							
		Type: Classroom/Virtual Classroom	View CTC page > Required tab. Ensure same action buttons appear on user's new Featured Course card.							
		Type: eLearning	View CTC page > Required tab. Ensure same action buttons appear on user's new Featured Course card.							
		Type: Self-Study	View CTC page > Required tab. Ensure same action buttons appear on user's new Featured Course card.							
		Type: Course Group	View CTC page > Required tab. Ensure same action buttons appear on user's new Featured Course card.							
	For Course Groups, add new action button to view Component Courses	i. Icon: Ordered-list ii. Hover Text: View Component Courses iii. Click: Opens alternate Course Group Components Expando								
	Add new action button to view Resources	i. Icon: Paperclip ii. Hover Text: View Resources iii. Click: Opens alternate Course Resources Expando								
Course Detail Expando	The following fields are standard for all course types, all enrollment status: 1. Code 2. Type 3. Duration 4. Tuition 5. Description		Verify data matches Course Details page.							
	6. Prerequisites (if applied)	Apply course prerequisite rules	Verify data matches user's Course Details page. Rule list with user's met/not met status							
	7. Equivalencies (if applied)	Apply course equivalency rules	Verify data matches user's Course Details page. Rule list with user's met/not met status							
Additional fields display for Classroom/Virtual Classroom delivery methods, depending on user enrollment status:	Status: Pending Approval, Scheduled	i. Facility Name ii. Facility Address with Google Map marker iii. Meeting Times (future only, hide past)	Verify data matches user's CTC page > Required tab							
	Status: Completed	Facility and Meeting Times removed, no action buttons.								
Additional fields display for Course Group delivery method, depending on user enrollment status:	Status: Not Enrolled, On Interest List, Pending Approval	Component Course list with no action buttons.								
	Status: Approved	Component Course list with action buttons in line. Action buttons for each component course should display and function same as Courses To Complete page.	See above test cases based on component course type and user enrollment status.							
	Status: Completed	No action buttons display for Course Group or Component Course list								
Course Resources Expando	When user clicks new View Resources (paperclip) button, an alternate expando opens with list of all attached resource records with detail	View course with list of attached resources.	Validate resourse list matches Course Details page							

Column 1: Resource	Record name from Resource Library.		Click name to download or launch resource, eliminating classic "Resource Details" page from the student/manager experience.							
Column 2: Type	a. Link = URL									
	b. Page = HTML									
	c. File = document MIME type (PDF, Excel, Word.docx, etc.)									
Course Group Components Expando	When user clicks this new (ordered-list) button, an alternate expando opens with list of all component courses, user status, and action options.									
Column 1: Components	Course Name, with link to its Course Details page. On click, legacy Course Details should open in modal.		Validate component course list matches Course Details page.							
Column 2: Status	User enrollment status		Verify against user's Training History/CTC page							
Column 3: Action	Course action buttons should display according to user's enrollment status, as described in "Course Cards" section above.									
"New" Course Flag	Display a green "New" flag on course cards for 30 days after defined "Course Display Date".	This flag should display in same spot as due date "Past Due" flag, in upper right corner of card.								
	Automatically remove flag at Course Display Date + 31 days.									
Manage Featured Course List	Edits to Location > Featured Course list are reflected in new page	Add course(s)								
		Remove course(s)								
		Reorder course(s)								
Manage Featured Courses Icon	Ensure edits to Navigation page icon affect new Featured Courses page.	Hide, customize, display	Site Management > Edit Navigation, Edit Stylesheets
