## Overview

Build an Angular page to replace the classic *Department Curriculum Status* page. The new *Team Skills* page allows managers to review who on their team has achieved which Skill Area/Level, and assign training goals accordingly.

### **Angular Platform Standards**

See document on Sharepoint here: <https://sharepoint.colatitude.com/Shared%20Documents/Forms/AllItems1.aspx?RootFolder=%2fShared%20Documents%2fLMS%20Team%20Documents&FolderCTID=&View=%7bED715CC1-B382-48EC-A0DF-7504EDCE9693%7d>

## Team Skills

Build an Angular page to replace the classic *Department Curriculum Status* page. The new *Team Skills* page allows managers to review who on their team has achieved which Skill Area/Level, and assign training goals accordingly.

- A. **Filters** allow managers to refine the list by: Position Group, Program, Skill Profile
- B. **Results list** displays a bootstrap “card” for each Skill Profile returned by filter. Same as classic page, Skill Profiles should display as a matrix of Skill Areas and Skill Levels.
  - Card Header: Skill Profile Name
  - Column 1: Skill Areas
  - Column 2-8: Skill Levels
  - Display in each cell the total number of users who have either been assigned a goal or have achieved a curriculum tied to each Skill Area/Level.
- C. **Action**
  - Skill Area – Click anywhere on the Skill Area row to expand its user detail, listing all users who have either been assigned or achieved a curriculum at each Skill Level.
    - User lists should be grouped by row:
      - A. Achieved = Check icon. Users who have completed transcript in curriculum associated with each Level of expanded Area
      - B. Assigned = Target icon. Users who have an assigned goal in curriculum associated with each Level of expanded Area

- User Skill Status – Click a user name to open their *Skills Status* modal. This modal should display a combination of the user’s curriculum status (Achieved/Goal) for each Area/Level intersect, then list required courses with color-coded enrollment status (Not Enrolled, On Interest List, Scheduled, etc).
